Template

The manuscript is prepared for publication in IEEE Xplore. Therefore, the template of the IEEE conference is used as APSAR 2025 template.

Conference ID

Conference ID for PDF-Express by IEEE:47496X

Document Formatting

Use the following guidelines when preparing your manuscript

Length

You are allowed a minimum of 4 pages and a maximum of 6 pages for your manuscript. These limits include all figures, tables, and references. Any documents that exceed the 6-page limit or fail to meet the 4-page minimum will be rejected.

Language

All manuscripts must be in English.

Margins

Documents should be formatted for standard letter size (8.5 in. by 11.0 in.) or A4 (210mm by 297mm) paper. All text and figures should be 178 mm x 229 mm (7-inch x 9-inch) images. The left margin must be 19mm (0.75 inches). The top margin must be 25mm (1.0 inch), except for the title page, where it must be 35mm (1.375 inches). On the first page, the top 50mm (2 inches) is reserved for the title, author(s), and affiliation(s). These items should be centered on the page, starting at 35mm (1.375 inches) from the top of the page.

Columns

Manuscripts should be in a 2-column format. The title and author block on the first page should span across the two columns. Comprehensive figures may travel across two columns. However, the use of complete figures should be limited if possible.

File Format

Papers must be submitted in Adobe Portable Document Format (PDF) format. Please make sure that you submit an excellent PDF to the submission system. Adobe Acrobat is the preferred way of generating a PDF file, but many other options produce quality PDFs.

PDF files

must not have Adobe Document Protection or Document Security enabled, must have either US Letter or A4-sized pages, must be in first-page-first order, and must have ALL FONTS embedded and subset. ALL FONTS MUST be embedded in the PDF or PostScript file. There is no guarantee that the reviewers of the abstract have the same fonts used in the document. If fonts are not embedded in the submission, you will be contacted by CMS and asked to submit a file with all fonts embedded. Please refer to your PDF file generation tool's user guide to find out how to embed all fonts.

File Size Limit

Authors will be permitted to submit a document file up to 5 MB (megabytes) in size.

File Name

The filename of the document file should be the author's full name, followed by the appropriate extension (.pdf). For example, if the author's full name is Catherine Lee, you would submit your file as" catherinelee.pdf. "If you submit more than one manuscript, please indicate "catherinelee1.pdf", "catherinelee2.pdf", and so on.

Important Date

Full Paper Submission Deadline: 1 July 2023 --> Extended to 15 July 2023 Notification of Paper Acceptance: 1 September 2023 Final Revised Full Paper Submission and Registration Deadline: 1 October 2023 Conference Day: 23 - 27 October 2023

Submission Final Manuscript

Use the EDAS link here to submit a manuscript or revise an existing submission. Please use the email address of your official affiliation to register in the EDAS system to avoid errors in EDAS registration. If you have any questions related to the submission, including the technical problem in submission, please don't hesitate to send an email (by attaching an abstract or full paper) to apsar2023-chairs@edas.info. Thank you!
